

Bringing a new level of security to e-wallet technology, SuperWallet provides secured cross-network payments on any mobile device anywhere.

Available as a standalone product or part of the SuperPay solution, SuperWallet offers a wide range of secure mobile financial services that are authenticated and exchanged via multiple remote and proximity channels.

SuperWallet services include deposits, withdrawals, money transfers, paying for bills and goods, top up and remittance.

Providing secured person to person monetary transactions, SuperWallet also answers many of the unbanked population's needs.

### SuperPay Solutions
