PureSecurity™

Product Suite

SuperCom's PureSecurity tracking platform provides real-time monitoring of people for criminal justice agencies. The platform, based on SuperCom's PureMonitor cloud based software, allows for efficient operations while enhancing security. Built on decades of experience implementing RFID solutions and large-scale government projects, the platform allows for easy, gradual and flexible implementation, meeting any agency or private operator challenges.

**Keep track of
your enrollees
with a system
you can trust**

PureSecurity™ Product Suite

PureSecurity products meet the most stringent industry standards and when used as a system allow for optimal operations.

Once the PureMonitor software is installed, clients can select the appropriate hardware for the required level of supervision. This modular approach allows for maximum scalability and flexibility.

PureTrack™

PureTrack leverages smartphone technology to provide the ultimate GPS enrollee tracking platform.

- GPS, cell tower and Wi-Fi location tracking
- RF tethering via Bluetooth
- Supports GSM, CDMA and Wi-Fi communications
- Calendar management
- Persistent offender term notifications and reminders
- Smartphone voice and text communications
- Portable breath-alcohol integration
- Bio-identification - fingerprint, voice

PureBeacon™

The PureBeacon is a secure RF device designed to provide indoor surveillance of offenders when GPS is not suitable.

- No charging required - Up to 3 years battery life
- Encrypted RF protocol
