

Secured Land Title

Designed to ensure private property ownership whereby empowering your nation's economy

Offering a lifetime of unequivocal proof of land-ownership, the innovative anti-fraud Secured Land Titles solution certifies your nation's most important asset on a personal and national level. Turning your nation's economic wheels, with over 17 built-in encrypted features, the fully customizable chip-secured paper certificate, opens many financial doors to land-owners.

Acting as a covenant between a country and its people, and preventing illegal activities, the Secured Land Titles solution enables governments to hermetically legitimize land-ownership and to also transparently monitor all activities on certified land.

Unique to SuperCom, and based on their experience in providing secured and biometric identity solutions, Secured Land Titles can be either part of the SuperCom GIS-based Land Information System or integrated into your existing one.

Secured Land Titles

From certificate generation to ongoing activities, the SuperCom Secured Land Titles solution provides the following:

- Printed certification on unique security-embedded paper
- Electronic security
- Biometric components
- Tracking and verification system designed for online and offline activities
- Full customization of 17 chip-secured encrypted features, colors and graphical images
