

## RF House Arrest with Reliable Fingerprint Verification

*You know where they are and they know where they can be*

A combination of the comfortably-smart PureTag bracelet and the technically-advanced PureCom base station, SuperCom's House Arrest solution brings versatility to home detention. Easily assembled and setup, House Arrest makes it easy for detainees to comply in an efficient RF monitoring solution.

Managed by PureMonitor software, House Arrest communicates over Wi-Fi, Ethernet, cellular and landline connections in a cost-effective cyber secure system. Enhancing detainee officer communications via a friendly interactive LCD touch screen with voice and emergency options, House Arrest enforces scheduled and spontaneous biometric authentication and minimizes the need for home visits.
