

Providing the means for merchants to safely sell and accept payments anywhere on any smart device, SuperPOS opens the door for new and increased business opportunities.

Designed as a secured cashless cross-network mobile to POS payments endorsement solution, SuperPOS is a better channel for receiving money for services, goods and bills.

Promoting user satisfaction and leading to higher sales, SuperPOS supports and streamlines many business procedures such as improving usability of a products catalog or processing customer information.

As a versatile solution, SuperPOS processes and secures payments using technologies such as NFC using HCE, biometric authentication, one time passwords and timing and the SafeMoney platform.

SuperPay Solutions

SuperWallet, providing secured financial e-money services on any mobile device

PayGuard, for effective one click e-commerce payments

SuperGateway, a fully customized payments processing platform

SafeMoney, safeguarding against device and network-based cyber threats

SuperPOS, for secured audio authenticated Point of Sales payments
