

Enhanced Domestic Violence Monitoring Using Smartphone Technologies

PureProtect, because monitoring is not enough

Monitoring court determined movement restrictions, the PureProtect app offers a protective front-line for victims of domestic violence. A discrete press for help on most smartphones, PureProtect is a combination of the PureTag ankle bracelet, a comprehensive smartphone apps and PureMonitor software.

Providing law enforcement with near real-time information and many lines of communication, PureProtect runs over latest GPS, cellular, Wi-Fi and Bluetooth technologies. Using advanced zoning, proximity, alerting and management capabilities, PureProtect enforces a safe distance as it updates victims on the offender's whereabouts.

All-In-One Monitoring

GPS Tracking

House Arrest

Inmate Monitoring

Officer Device

Knowing Where They Both Are

Monitoring their movements to keep their distance

A life-saving domestic violence solution and part of the PureSecurity products family, PureProtect electronic offender monitoring provides all information needed to safeguard victims and enforce court restrictions.
